## PRO BONO LEGAL HELP FOR UKRAINIAN REFUGEES

In response to the situation in Ukraine, we established **UA.SUPPORT – linking help**, a platform that links Ukrainian refugees requesting legal help in different countries with volunteer lawyers who joined the platform in order to help them pro bono. However, **we need support** to continue providing a legal space where more volunteer lawyers and those in need can meet.

Currently, we have volunteer lawyers across 20 countries who have joined the project in just over a few weeks. They already handled hundreds of requests from refugees. A number of lawyer's bar associations already officially recognized us, or expressed support for our call, and more is yet to come. International legal organizations (International Young Lawyers' Association—AIJA, PILNet) are already in touch with us. The Ukrainian embassy in the Czech Republic, the Amera International website, and others are listing us.

The project is operated by and entirely funded through donations to the independent non-profit NGO **AgiLawyer Society z.s.** All sums collected are used to cover the expenses of UA.SUPPORT such as salaries of Ukrainian refugees involved in the project (attorneys, IT experts, specialists, etc.), training for volunteer lawyers, and further development of the project from a technical, business, and human perspective.

There are three ways how to support us:

- **Contribute financially:** In exchange for your generous support, we would like to let the world know about your organization through our network and our partnerships. You can directly donate via the website of **AgiLawyer Society**, or let us know directly via email so that we can discuss the benefits and visibility we can offer you.
- **Join our efforts as a volunteer lawyer:** Join the project via our website at **UA.SUPPORT**. Following a rapid vetting process, you will be able to choose the cases you wish to handle, in light of your experience and capacity.
- **Spread the word about us:** You can acknowledge us and raise awareness about the Platform. The more people who know about us, the more our network will grow and the more assistance we will receive. For instance, you could post a link to UA.SUPPORT on your website, post information about us on social media, or share this information with your members.
